Suspicious Activity Report Instructions

Safe Harbor Federal law (31 U.S.C. 5318(g)(3)) provides complete protection from civil liability for all reports of suspected or known criminal violations and suspicious activities to appropriate authorities, including supporting documentation, regardless of whether such reports are filed pursuant to this report's instructions or are filed on a voluntary basis. Specifically, the law provides that a financial institution, and its directors, officers, employees and agents, that make a disclosure of any possible violation of law or regulation, including in connection with the preparation of suspicious activity reports, "shall not be liable to any person under any law or regulation of the United States or any constitution, law, or regulation of any State or political subdivision thereof, for such disclosure or for any failure to notify the person involved in the transaction or any other person of such disclosure."

Notification Prohibited Federal law (31 U.S.C. 5318(g)(2)) requires that a financial institution, and its directors, officers, employees and agents who, voluntarily or by means of a suspicious activity report, report suspected or known criminal violations or suspicious activities may not notify any person involved in the transaction that the transaction has been reported.

In situations involving violations requiring immediate attention, such as when a reportable violation is ongoing, the financial institution shall immediately notify, by telephone, appropriate law enforcement and financial institution supervisory authorities in addition to filing a timely suspicious activity report.

WHEN TO MAKE A REPORT:

1. All financial institutions operating in the United States, including insured banks, savings associations, savings association service corporations, credit unions, bank holding companies, nonbank subsidiaries of bank holding companies, Edge and Agreement corporations, and U.S. branches and agencies of foreign banks, are required to make this report following the discovery of:
 - a. **Insider abuse involving any amount.** Whenever the financial institution detects any known or suspected Federal criminal violation, or pattern of criminal violations, committed or attempted against the financial institution or involving a transaction or transactions conducted through the financial institution, where the financial institution believes that it was either an actual or potential victim of a criminal violation, or series of criminal violations, or that the financial institution was used to facilitate a criminal transaction, and the financial institution has a substantial basis for identifying one of its directors, officers, employees, agents or other institution-affiliated parties as having committed or aided in the commission of a criminal act regardless of the amount involved in the violation.
 - b. **Violations aggregating \$5,000 or more where a suspect can be identified.** Whenever the financial institution detects any known or suspected Federal criminal violation, or pattern of criminal violations, committed or attempted against the financial institution or involving a transaction or transactions conducted through the financial institution and involving or aggregating \$5,000 or more in funds or other assets, where the financial institution believes that it was either an actual or potential victim of a criminal violation, or series of criminal violations, or that the financial institution was used to facilitate a criminal transaction, and the financial institution has a substantial basis for identifying a possible suspect or group of suspects. If it is determined prior to filing this report that the identified suspect or group of suspects has used an "alias," then information regarding the true identity of the suspect or group of suspects, as well as alias identifiers, such as drivers' licenses or social security numbers, addresses and telephone numbers, must be reported.
 - c. **Violations aggregating \$25,000 or more regardless of a potential suspect.** Whenever the financial institution detects any known or suspected Federal criminal violation, or pattern of criminal violations, committed or attempted against the financial institution or involving a transaction or transactions conducted through the financial institution and involving or aggregating \$25,000 or more in funds or other assets, where the financial institution believes that it was either an actual or potential victim of a criminal violation, or series of criminal violations, or that the financial institution was used to facilitate a criminal transaction, even though there is no substantial basis for identifying a possible suspect or group of suspects.
 - d. **Transactions aggregating \$5,000 or more that involve potential money laundering or violations of the Bank Secrecy Act.** Any transaction (which for purposes of this subsection means a deposit, withdrawal, transfer between accounts, exchange of currency, loan, extension of credit, purchase or

sale of any stock, bond, certificate of deposit, or other monetary instrument or investment security, or any other payment, transfer, or delivery by, through, or to a financial institution, by whatever means effected) conducted or attempted by, at or through the financial institution and involving or aggregating \$5,000 or more in funds or other assets, if the financial institution knows, suspects, or has reason to suspect that:

- i. The transaction involves funds derived from illegal activities or is intended or conducted in order to hide or disguise funds or assets derived from illegal activities (including, without limitation, the ownership, nature, source, location, or control of such funds or assets) as part of a plan to violate or evade any law or regulation or to avoid any transaction reporting requirement under Federal law;
- ii. The transaction is designed to evade any regulations promulgated under the Bank Secrecy Act; or
- iii. The transaction has no business or apparent lawful purpose or is not the sort in which the particular customer would normally be expected to engage, and the financial institution knows of no reasonable explanation for the transaction after examining the available facts, including the background and possible purpose of the transaction.

The Bank Secrecy Act requires all financial institutions to file currency transaction reports (CTRs) in accordance with the Department of the Treasury's implementing regulations (31 CFR Part 103). These regulations require a financial institution to file a CTR whenever a currency transaction exceeds \$10,000. If a currency transaction exceeds \$10,000 and is suspicious, the institution must file both a CTR (reporting the currency transaction) and a suspicious activity report (reporting the suspicious or criminal aspects of the transaction). If a currency transaction equals or is below \$10,000 and is suspicious, the institution should only file a suspicious activity report.

2. A financial institution is required to file a suspicious activity report no later than 30 calendar days after the date of initial detection of facts that may constitute a basis for filing a suspicious activity report. If no suspect was identified on the date of detection of the incident requiring the filing, a financial institution may delay filing a suspicious activity report for an additional 30 calendar days to identify a suspect. In no case shall reporting be delayed more than 60 calendar days after the date of initial detection of a reportable transaction.
3. This suspicious activity report does not need to be filed for those robberies and burglaries that are reported to local authorities, or (except for savings associations and service corporations) for lost, missing, counterfeit or stolen securities that are reported pursuant to the requirements of 17 CFR 240.17f-1.

HOW TO MAKE A REPORT:

1. Send each completed suspicious activity report to:

FinCEN, Detroit Computing Center, P.O. Box 33980, Detroit, MI 48232
 2. For items that do not apply or for which information is not available, leave blank.
 3. Complete each suspicious activity report in its entirety, even when the suspicious activity report is a corrected or supplemental report.
 4. Do not include supporting documentation with the suspicious activity report. Identify and retain a copy of the suspicious activity report and all original supporting documentation or business record equivalent for 5 years from the date of the suspicious activity report. All supporting documentation must be made available to appropriate authorities upon request.
 5. If more space is needed to complete an item (for example, to report an additional suspect or witness), a copy of the page containing the item should be used to provide the information.
 6. Financial institutions are encouraged to provide copies of suspicious activity reports to state and local authorities, where appropriate.
